RE: Reference Letter

Dear Mark,

On behalf of Aimia, we would like to thank you and your team at Marfoglia Construction Inc. for an outstanding job in our global headquarters relocation to Tour Aimia.

As a knowledgeable builder and construction manager, you and your team were exceptional in ensuring the success of this project by working in synch with the designers, consultants and landlord. Your ability to handle timelines, quality requirements and cost challenges exceeded expectations.

Marfoglia's leadership kept the team members focused and highly positive throughout the project. You demonstrated an ability to foresee and avoid problems, communicate effectively for high quality and on-time delivery. When issues arose, you invariably dealt with them effectively and professionally. This set the tone for the entire project.

The custom millwork was exceptionally well produced and we look forward to working with you on future purchases for our boardroom and meeting room needs.

Congratulations on a job well done! It was a pleasure working with you again and we would not hesitate to recommend, without reservation, the services of Marfoglia Construction.

Yours truly,

Paul Delisle

DIRECTOR, PROJECT MANAGEMENT & INFRASTRUCTURE
AIMIA
