Dear Mark,

Please accept our thanks for your focused and diligent efforts during our recent relocation. In the early stages of such an undertaking, one must believe in the design and vision as it develops on paper. Transitioning ideas and drawings to a reality that truly reflects our professionalism and attention to detail required the very best, and having had a very positive experience with our renovations in 2009, we returned to you.

Your experience and insight, and your attentive approach to construction management helped us bring this 92,000 sq. ft. relocation project in on time and within budget. As the project progressed, we decided to add 4500 sq. ft., and the evolution of our vision required changes that you and your teams absorbed while respecting the original schedule.

Now, in our new space, we can enjoy the benefits of our updated design and technology, warmly balanced with exception quality millwork and craftsmanship. The horizontal installation of North American walnut in both our reception area and throughout our training and conference centre is truly a testament to your expertise working fine woods.

Once again, Mark, our thanks for allowing us to transform our vision into a stunning reality.

Yours very truly,

**Richter**
